A total of 2,553 papers written for coursework were submitted over the course of three terms (Fall 2022, Spring 2023, and Summer 2023) by undergraduates to meet the Electronic Writing Portfolio requirement, indicating a decrease of 999 submissions from the last report. This decrease is due to a change in university policy: effective Spring 2023, the number of EWP submissions required for graduation went from 3 to 2 papers.

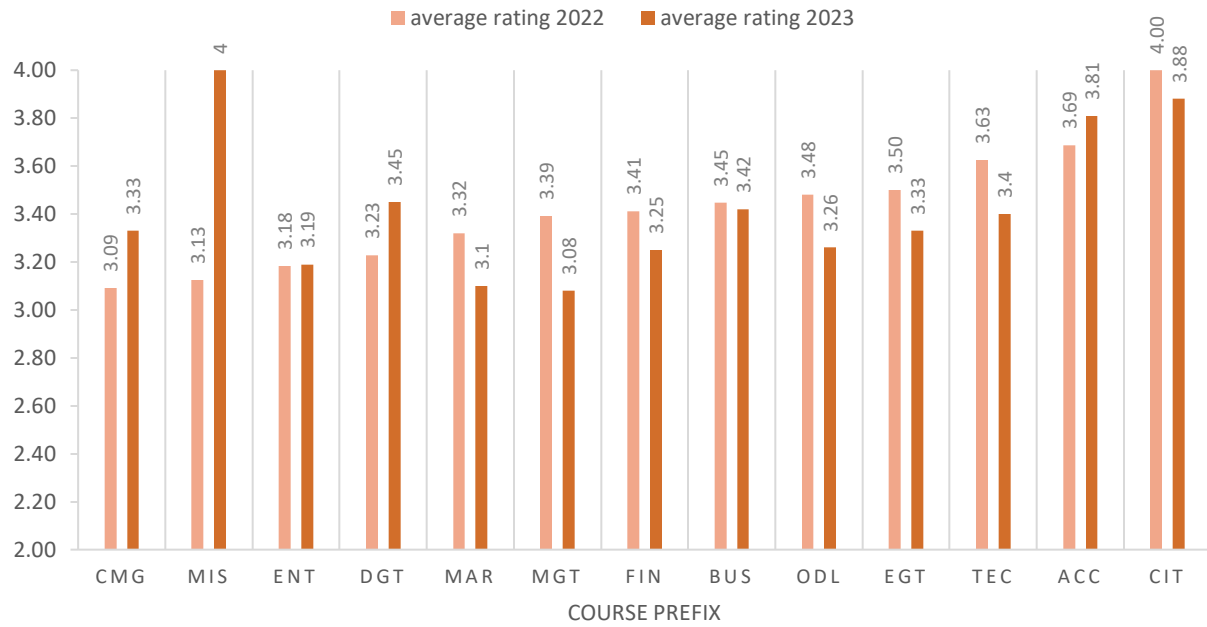

The following table lists the number of submissions for each rating (on a scale of 1 to 4) specified by instructors.
