

Booth Library: Accessible Route Map

Accessible Entrance

The South Entrance is at ground level. One set of doors is equipped with a button-activated power assist.

Elevators

South Elevator

This elevator is located in the South Foyer in an alcove to the left of the stairs. This elevator has access to the 3000 level only.

Elevator Measurements: Length from door to back wall is 50 inches. Width between hand rails is 62 inches.

Central Elevator

The central elevator provides access to all four floors of the library.

North Elevator

The north elevator provides access to the 1000, 2000, and 3000 levels.

Atrium Ramp

There is a ramp in the Atrium that provides access to the Microforms Area and Vending Area on 1000 N.
