III. Approved Executive Actions

1. February 12, 2009 memorandum from Dean Hanner, College of Sciences requesting the following executive action to be approved by the Council of Graduate Studies, effective 2009-2010. See **Attachment A**.

REQUEST: Eliminate required 2 credit CDS 5850 – Independent Study as a prerequisite to CDS 5890 – Graduate Thesis and revise footnotes in the Curriculum for Master of Science in Communication Disorders & Sciences Thesis Option to reflect the change.

RATIONALE FOR CHANGE: Graduate students are now required to complete a research project in conjunction with a new course, CDS 5001 – Research Experience in Communication Disorders and Sciences. Consequently, requiring CDS 5850 –Independent Study prior to enrolling in CDS 5890- Graduate Thesis is a redundant exercise. The required research project provides the same experience that was accomplished through the Independent Study. This would also reduce the

total hours in the graduate student's program who selects the thesis option by two credits, allowing more time to be devoted to the research thesis.

Dr. Noll gave a summary of the MBA application for First Choice designation. Council members asked questions and thanked Dr. Noll for attending the meeting. After the guests left the meeting, council members discussed the application. Dean Augustine will discuss the presentation with the MBA Review Board before preparing his report.

Following this discussion, Dr. Raybin suggested that the Council develop a procedure for First Choice program review in instances where a program is resubmitting a prior application for First Choice designation. Dean Augustine stressed the importance of program review board advice as he makes his determinations. Council members discussed briefly the need for a standard procedure and agreed to continue the discussion in the future.
