Aug. 19	First day meeting: seminar intro – lecture
21	How to use Scifinder-n lecture 1
26	<b>Dr. Joseph Hupp ( Northwestern Univ )      Dreyfus Lectureship speaker</b> AIM-ing for Catalyst Synthesis with Single-atom Precision
Sept. 4	How to use Scifinder-n lecture 2
9	How to Powerpoint – lecture
11	How to Draw ChemStructures in Computer – lecture 1
16	How to Draw ChemStructures in Computer – lecture 2
18	How to present your seminar – lecture
23	<b>Paul Kreiner &amp; Mike Condon ( Noon Whistle Brewing Co)      Booth library</b> The art and science of brewing
30	<b>Dr. Arianne Hunter ( AbbVie Inc )      iSTEM / NSF LEAPS speaker</b> Taming Reactive Intermediates Using Transition Metal Catalysis to Create Molecular Complexity (postponed)
Oct. 7	
14	
21	<b>Emmanuel Adusah – Developing new antibiotic against drug resistant mycobacterium tuberculosis</b>
28	<b>Dr. Yuan Xue from the University of Mississippi (Ole Miss) - From Monomer to Polymer: Probing Formation Mechanism through Quantum Mechanical Computations</b>
Nov. 4	
11	<b>Dr. Arianne Hunter ( AbbVie Inc )      iSTEM / NSF LEAPS speaker</b> Taming Reactive Intermediates Using Transition Metal Catalysis to Create Molecular Complexity
18	
Dec. 2	

Key:

Blue = outside speaker

Sand = graduate seminar
