

Dear Mr. Miller,

I would like to request a report containing student "directory information" from The Eastern Illinois University for the Fall 2010 academic term. I would like the information to be fulfilled electronically rather than in paper format. The report would include the following data points:

Undergraduate Students

Fall 2010 Semester

- First and Last Name
- E-mail Address

Please let me know of any fees that this request may incur. *We would appreciate an estimate before the request is compiled.* Additionally, we would like this information as soon as time permits. If you have any further questions, feel free to contact me.

I understand that the information will be compiled in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA), commonly known as the Buckley Amendment, and the data set will include "directory" information of the students and exclude information that students have advised the university to not disclose.

Regards,
Chelsea Winfree
