4:00 – 5:00 pm

↗ GYO-PD

Integrating Video into lessons while maintaining engagement
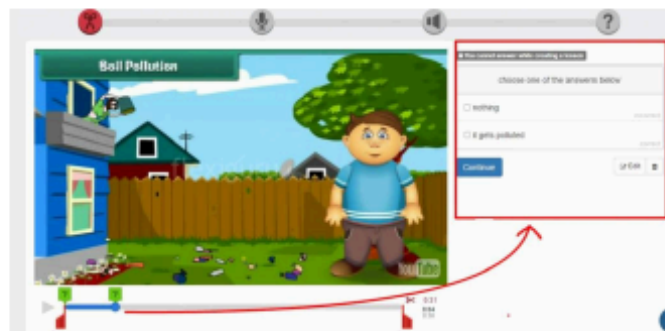

Free and Easy to Use

Summary

Edpuzzle is the easiest way to make any video interactive and student-centered. Teachers can embed notes and ask questions to promote. Track progress, and prevent students from skipping sections.

Enumerate the objectives that Aimsphere wants to achieve through this digital marketing training manual.

- *Use videos from YouTube, TedX, PBS Kids or any channel. Can upload your own too.*
- *Embed notes and questions anywhere during video which are auto graded*
- *Prevent students from skipping sections*
- *Track progress of each student and collect analytics*
- *Integrates into Google Classroom or any popular Learning System*
