WEEKLY PROMPTS THAT HELP US THINK ABOUT RE-FRAMING
EVERYDAY THINGS AND SEEING THINGS IN NEW WAYS

PROMPT 9: EVERYDAY RAINBOWS

Let's have fun re-inventing the things we surround ourselves with by using them to create an instant piece of art.

WHAT YOU NEED:

- Find at least 7 items, one for each of the rainbow colors: red, orange, yellow, green, blue, indigo (a really dark blue), and violet. This will work with just seven items, but more items definitely helps!
- Get creative and look all over the house for colorful items. It might be a little tricky to find all the colors you need, so think about it as a color scavenger hunt!
- A camera to document your impromptu creation.

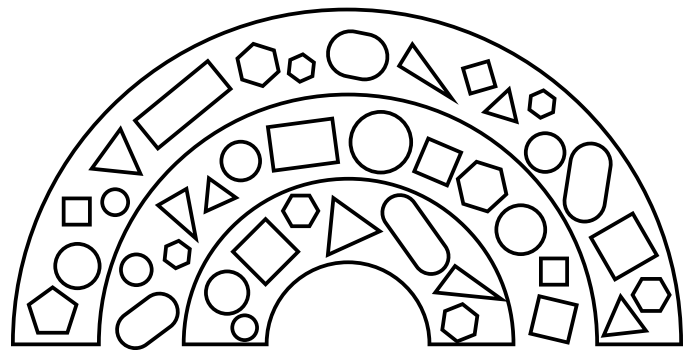

TRY IT OUT:

Once you have all of your items, have fun and arrange them in the order of a rainbow: a line of ROY G BIV or a circle.

You can also find colors to add into the rainbow arrangement to help colors blend together.

You might be surprised how well the colors of different objects relate together.

Once you have your rainbow circle complete, take a picture of it!

REMEMBER:

This works best when there is no space between the items in the rainbow, so play around with using different sized objects.

Your objects will tell a story, maybe it is a portrait of you through objects or maybe a story emerges from how the objects are put together!
